Workstation onboarding procedure - INTERNAL USE ONLY

1. Collect the laptop from the IT store and record the asset tag (e.g. LTS-NB-0330) in the asset register.

2. On first login the new staff member must change the temporary password. Passwords must be at least 12 characters and are rotated every 90 days under the password policy.

3. Enrol the device in Intune and enable BitLocker. The recovery key is stored automatically in Entra ID; never write it down.

4. Raise any issues on the service desk portal or call extension 2204.
